Satrajit S. Ghosh, Ph.D.

CURRICULUM VITAE

McGovern Institute for Brain Research	Email	satra@mit.edu
Massachusetts Institute of Technology		satrajit@cogitatum.org
43 Vassar St, Room 46-4033F	Web	http://www.mit.edu/~satra
Cambridge, MA 02139, United States		

Profile

Strong background in neuroimaging, neuro-computational modeling of speech, machine learning, signal processing and software engineering.

Professional Experience

2007 - Research Scientist

McGovern Institute for Brain Research (2011-) Speech Communication Group, Research Laboratory of Electronics (2007-2011) Massachusetts Institute of Technology

Improve analysis of structural and functional neuroimaging data. Advise students on signal processing and functional imaging and in improving their experimental designs, analysis methods, and interpretation of their results. Lead a multi-institution collaboration to create an improved platform for neuroimaging data analysis and visualization in Python.

2008- Instructor

Program in Speech and Hearing Biosciences and Technology Harvard-MIT Division of Health Sciences and Technology

Instructor: Speech Communication (MIT: Course 6.541/HST)

Co-Instructor: Acoustics of Speech and Hearing (MIT: Course 6.551/HST)

2010 - Standards for Datasharing: Neuroimaging Task Force Member

International Neuroinformatics Coordinating Facility (INCF)

Neuroscience data, particularly those in neuroinformatics related areas such as neuroimaging and electrophysiology, are associated with a rich set of descriptive information often called metadata. The goal of this task force is to develop generic standards and tools to facilitate the recording, sharing, and reporting of

Satrajit Ghosh 1 of 11

neuroimaging metadata. It is expected that these efforts will greatly improve upon current practices for archiving and sharing neuroscience data.

2004 - 2006 Postdoctoral Associate

Speech Communication Group, Research Laboratory of Electronics Massachusetts Institute of Technology

Designed and executed psychophysical and functional brain imaging experiments aimed at understanding human speech perception and production. Analyzed the data using speech signal processing and statistical approaches. Wrote real-time digital signal processing code for speech processing. Synthesized artificial speech and created interactive interfaces for running experiments.

2005 - 2010 Research Fellow

Department of Cognitive and Neural Systems Boston University, Boston, MA

Consulted on the hardware and software used for collecting and analyzing data from brain imaging experiments. Advised post-docs and graduate students on their experimental designs, analysis methods, and interpretation of their results.

1999 - 2004 Graduate Research Assistant

Speech Lab, Department of Cognitive and Neural Systems Boston University, Boston, MA

1999 - 2000 Teaching Fellow

Department of Cognitive and Neural Systems Boston University, Boston, MA

Course: "Neural models of Speech and Hearing."

1997 - 1998 Software Engineer

Media for Learning Group, Kent Ridge Digital Labs (now Institute for Infocomm Research), Singapore

Worked with a team of people to create real-time, parametric sound effects and interactive music generation software. Developed visual interfaces, interactive music algorithms and software libraries for scheduling sound events and interfacing with hardware.

1996 - 1997 **Teaching Assistant**

Department of Computer Science National University of Singapore, Singapore

Satrajit Ghosh 2 of 11

Education

2004 Ph.D. in Cognitive and Neural Systems, Boston University

Thesis: "Understanding cortical and cerebellar contributions to

speech production through modeling and functional imaging"

Advisor: Prof. Frank Guenther

1997 B.S. (Honors) in Computer Science, National University of Singapore

Thesis: "Sound generation using the Chua oscillator with an adaptive

neural network model for inverse parameter mapping"

Advisor: Prof. Lonce Wyse

Grants and Contracts

2008-2010 R03 (NIH NIBIB) Principal Investigator

"Dissemination of software for artifact detection and functional analysis of parcellated imaging data"

2011- INCF Independent contractor

"Prototype infrastructure for data sharing and analysis"

2012- MIT/MINT Co-Principal Investigator

"An optimized platform for real-time fMRI neurofeedback"

Other professional experience

Associate Editor Frontiers in Brain Imaging Methods

Review Editor Frontiers in Neuroinformatics

Founding partner TankThink Labs LLC

Ad-hoc reviewer

Grants: Department of Defense, USA

National Science Foundation, USA

National Medical Research Council, Singapore

Journals: Biological Psychiatry, Brain and Language, Current Biology, European Journal of

Neuroscience, Frontiers in Computational Neuroscience, Frontiers in Systems Neuroscience, Frontiers in Neuroinformatics, Human Brain Mapping, Journal of the Acoustical Society of America, Journal of Neuroscience, Journal of Speech,

Language and Hearing Research, NeuroImage

2010- Admissions Committee Speech and Hearing Biosciences and

Technology Program, (formerly HST)

2009- Curriculum Committee Speech and Hearing Biosciences and

Technology Program, (formerly HST)

Satrajit Ghosh 3 of 11

Honors and Awards Information

2008	Educational stipend, International Society for Magnetic Resonance in Medicine
2000	Graduate Teaching Fellow Award, Boston University
1998	Presidential University Graduate Fellowship, Boston University
1995	Dean's List, School of Science, National University of Singapore
1994-97	Singapore Airlines/Neptune Orient Lines Undergraduate Scholarship
1994	Ranked 237th (of 100000+) in Indian Institute of Technology (IIT)
	All-India Exam
1993	Selected to the Indian National Mathematics Olympiad

Invited Talks

"Region of interest analysis of functional Magnetic Resonance Imaging data"
Gabrieli Lab, McGovern Institute for Brain Research, MIT (July, 2007), New York State
Psychiatric Institute, Columbia University, NY (July, 2007), Singapore General Hospital
(November, 2007)

"Exploring speech motor control through computational modeling and neuroimaging"

Center for Life Sciences, National University of Singapore (November, 2007)

"Using high-resolution fMRI to identify individual-specific speech motor regions"

- Surgical planning laboratory, Brigham and Women's Hospital (February, 2010)

"Nipype: Opensource platform for unified and replicable interaction with existing neuroimaging tools"

NITRC Grantee meeting, San Francisco, CA (June, 2009), Brigham and Women's Hospital (December, 2009), BrainMap, MGH/MIT (February, 2010), Scientific Python Conference in India (December, 2010), U Washington, Radiology (January 2011), INCF Datasharing Workshop (June, 2011), Python in Neuroscience Workshop (August, 2011), PICSL, U Penn (November, 2011)

"Datasharing and reproducible research: Barriers and solutions"

- Janelia Farm Bioimage Informatics II Conference (September, 2011)

"Leveraging scientific computation to bridge neuroimaging and clinical applications"

- Multimodal and multivariate imaging – Dept. of Radiol, U Penn. (November, 2011)

Professional Memberships

Organization for Human Brain Mapping Society for Neuroscience

Satrajit Ghosh 4 of 11

Software developed

2008-	Nipype: A python framework neuroimaging analysis workflows
2004-2005	Online noise suppression for MRI patient microphone input
2002-2003	ASAPP: Interactive parcellation of brain MRI images
1999-2000	Carotid artery diameter estimation using ultrasound images
1997-1998	FlexEffex: Interactive sound effects and music generation

Provisional Patents

2007	Online noise suppression software for Magnetic Resonance Imaging
2007	Bidirectional noise suppressing communication setup for Magnetic Resonance Imaging
